Publication placeholder

EXAMPLE ONLY - NOT A RESEARCH PUBLICATION

This one-page document demonstrates a working local PDF link on the academic homepage. It is not a paper, and does not substantiate the example publication entries.

Replace this file before publishing

Put your actual paper in assets/papers/your-paper.pdf. In data/profile.json, set the publication links.pdf field to ./assets/papers/your-paper.pdf.

If you do not have a PDF yet, set links.pdf to an empty string. The PDF button will be hidden automatically.

Maintaining the homepage

Edit the JSON profile to update your publications. No HTML or JavaScript changes are required. Upload the PDF with the rest of your static website files.
